

DWAR

Built once.
Built for life.

An entrance
is not where a
space begins.
*It is where it
is defined.*

In most spaces, doors are treated as an afterthought—
functional, replaceable, forgettable.

But an entrance is the first moment of architecture.
The first signal of intent.
The first expression of permanence.

DWAR is built on a simple belief:
what defines a space should never be temporary.

BUILT ONCE. BUILT FOR LIFE.

Engineered for *what matters.*

DWAR is not just built to look exceptional.
It is built to perform—every single day,
for decades.

WATERPROOF

100% waterproof
core and surface.
No swelling. No warping.
No worries.

FIRE-RATED

Fire resistance
that protects what
matters most.
Safety, built in.

BUILT FOR LIFE

High-impact strength.
Corrosion resistant.
Built to last decades,
not years.

Built with
intent. Inside out.

Every DWAR door is a result of thoughtful material selection and precision engineering.

A door that looks refined on the outside, and is engineered to perform within.

The Anatomy of Engineered Intelligence

Built to endure, *designed to outlast.*

DWĀR doors are engineered to perform in conditions that challenge ordinary doors.

From relentless monsoons to searing heat, from everyday impact to the test of time—they remain unwavering.

**Performance is not a feature.
It is our foundation.**

WATERPROOF

100% protection against water and moisture.

FIRE-RATED

Tested for safety. Built to protect what matters.

BUILT FOR LIFE

High-impact. Corrosion resistant. Built to last decades.

LOW MAINTENANCE

No swelling. No warping. No worries.

BUILT ONCE. BUILT FOR LIFE.

REAL CONDITIONS. REAL PERFORMANCE.

WATER EXPOSURE

DWĀR DOOR

No swelling. No decay. No compromise.

ORDINARY DOOR

Swells, warps, and deteriorates.

FIRE EXPOSURE

DWĀR DOOR

Certified fire resistance. Engineered for safety.

ORDINARY DOOR

Falls under heat. Unsafe. Unreliable.

HIGH HUMIDITY

DWĀR DOOR

Moisture-proof core. Stays strong within.

ORDINARY DOOR

Shows age. Needs replacing.

One standard. *Every space.*

From iconic entrances to everyday interiors, DWAR doors deliver the same uncompromising performance, refined craftsmanship, and design integrity across every space they inhabit.

ENTRANCE DOORS
Make a statement that lasts.

INTERNAL DOORS
Seamless design. Everyday excellence.

BEDROOM DOORS
Quiet strength behind every moment.

WATERPROOF

100% protection against water and moisture.

FIRE-RATED

Tested for safety. Built to protect what matters.

BUILT FOR LIFE

High-impact. Corrosion resistant. Built to last decades.

LOW MAINTENANCE

No swelling. No warping. No worries.

BATHROOM DOORS
Engineered to resist moisture. Built to last.

UTILITY & SERVICE DOORS
Reliable performance in every condition.

APARTMENT DOORS
Refined security and style for modern living.

Backed by precision. *Built on legacy.*

DWAR is powered by Konita—
a name built on decades of manufacturing expertise,
material innovation, and global distribution.

Every door reflects a system refined at scale,
and a standard that does not compromise.

Luxury, engineered with certainty.

3+ DECADES
of manufacturing
excellence

**ADVANCED
MATERIAL INNOVATION**
Engineered for strength,
beauty, and durability
